"Let Me Win" Crypto Pool

A New Crypto Mining Experience

Join Our Bitcoin Mining Pool for higher "solo mining" chance

Fair. Transparent. Optimized for Small Miners.

Why mine with us BTC or BCH?

Very high reward share:

- The big relevance of "solo" mining approach, most of all enabled by Bitaxe® hardware, is very interesting but gives you ridicoluous chance to win.
- Why not create a bigger hashing power joining our efforts together respecting the "solo" principles and benefits?
- We distribute **85% of the block reward to the winner**, and **10% is shared among the other miners** based on participation (shares).
- **Only 5%** is kept by the pool to cover operational and mantainance costs.

Much higher chance of payout:

- Solo mining gives you 100% of the reward....but almost zero chance of winning!!!
- In our pool, even miners with low hashrate can earn regularly by contributing with shares

Full transparency:

- We developped the blockchain node under Linux Ubuntu and NOMP technology (Node Open Mining Portal)
- All payouts are logged in detailed JSON files and published in a real-time dashboard
- Telegram channel for alerting about resolved blocks
- Public, separated and registered IP @ Aruba.it (lmwpool.com for BTC miners, lmwpool.cloud for BCH miners)
- No registration. No KYC. No tracking
- Just connect and mine. That's it. Your hash, your earnings.
- You don't resolve blocks? You get already be paid based on shares you've produced

Direct contact with the pool manager:

- We're not a black-box service. You can always ask questions by Telegram (@lmwpool_btc for BTC or (@lmwpool_bch) or email (info@lmwpool.com for BTC and info@lmwpool.cloud for BCH), get help, and suggest improvements. The Telegram channel will send you in real time the block resolved by the pool, so you can monitor the pool's performance

Coming soon: mining loyalty tokens:

- Every hour you stay connected, you'll earn loyalty tokens. These may be:

  - Converted into future payout credits
  - Redeemed as shares
  - Used inside our community for extra rewards

How to connect to lmwpool.cloud (BCH)

- **Bitaxe devices: Stratum URL**: stratum+tcp://lmwpool.cloud:3333
- **Medium and Advanced devices**
  - **Stratum URL**: stratum+tcp://lmwpool.cloud:4444 (medium)
  - **Stratum URL**: stratum+tcp://lmwpool.cloud:5555 (advanced)
- **Username**: your wallet address
- **Password**: anything or "X"
- **Compatibility:** with most ASICs and stratum-compliant miners. Bitaxe® devices are welcomed and optimized on 3333 port!

Let Me Win Pool

Get your chance to earn Bitcoin at no costs than your own hardware, using the entire pool power!
